# About TheCapitol.Net

We help you understand Washington and Congress.™

For more than 35 years, TheCapitol.Net and its predecessor, Congressional Quarterly Executive Conferences, have been training professionals from government, military, business, and NGOs on the dynamics and operations of the legislative and executive branches and how to work with them.

Our training and publications include congressional operations, legislative and budget process, communication and advocacy, media and public relations, research, testifying before Congress, legislative drafting, critical thinking and writing, and more.

TheCapitol.Net encompasses a dynamic team of more than 150 faculty members and authors, all of whom are independent subject matter experts and veterans in their fields. Faculty and authors include senior government executives, former members of Congress, Hill and agency staff, editors and journalists, lobbyists, lawyers, nonprofit executives, and scholars.

We have worked with hundreds of clients across the country to develop and produce a wide variety of custom, on-site training programs.

All courses, seminars, and workshops can be tailored to align with your organization's educational objectives and presented on-site at your location.

TheCapitol.Net is on the GSA Schedule, 874-4, for custom on-site training:  
GSA Contract GS02F0192X.

TheCapitol.Net has more than 2,000 clients representing congressional offices, federal and state agencies, military branches, corporations, associations, news media, and NGOs nationwide.

TheCapitol.Net is a non-partisan firm.

In its most elemental form, the federal budget is a comprehensive accounting of the government's spending, revenues, and borrowing. This report provides a brief overview of the basic terminology and concepts used in the federal budget process.

## Fiscal Year

The *fiscal year* is the accounting period of the federal government. It begins on October 1 and ends on September 30 of the next calendar year. Each fiscal year is identified by the calendar year in which it ends and commonly is referred to as "FY." For example, FY2011 began October 1, 2010, and ends September 30, 2011.

## Spending

The key terms of federal spending are *budget authority*, *obligations*, *outlays*, and *spendout rate*. Congress and the President enact budget authority in law. Budget authority allows federal agencies to incur obligations, such as entering into contracts, employing personnel, and submitting purchase orders. Outlays represent the actual payment of these obligations, usually in the form of electronic transfers or checks issued by the Treasury Department. The rate at which budget authority becomes outlays in a fiscal year is called the spendout rate, or the *outlay rate*. The spendout rate varies among agencies' accounts depending on the timing of activity in each account.

Budget authority may be made available for obligation for a one-year, multiyear, or no-year period. One-year, or annual, budget authority is available for obligation only during a specific fiscal year, and any unobligated authority expires at the end of that fiscal year; multiyear budget authority is available for a specified period longer than one fiscal year; and no-year budget authority is available for an indefinite period (i.e., until expended).

Typically, new budget authority is provided in the form of permanent appropriations or annual appropriations. Permanent appropriations provide new budget authority each year without any annual legislative action. Usually, this type of new budget authority is provided in legislation authorizing the program, such as in the case of most entitlement programs (e.g., Social Security benefits). Annual appropriations, on the other hand, generally provide new budget authority for the particular fiscal year for which they were enacted. In some cases, new budget authority in annual appropriations acts is made available for more than one year, or for a future fiscal year. Annual appropriations are provided in the regular appropriations bills enacted by Congress and the President each year. Annual appropriations also may be provided in supplemental appropriations acts and continuing appropriations acts (often referred to as continuing resolutions).

New budget authority also may be made available to agencies in the form of borrowing authority, contract authority, and the authority to spend offsetting collections. Borrowing authority and contract authority allow agencies to borrow funds and enter into contracts prior to enactment of appropriations. Spending authority from offsetting collections may be provided to allow agencies to obligate and spend funds, such as fees, collected from the public for certain market-oriented activities. Offsetting collections are deducted from gross budget authority and outlays at the account or higher level.

## Revenues

*Revenues*, also known as *receipts*, are the funds collected from the public primarily as a result of the federal government's exercise of its sovereign powers. Most of the federal government's revenues consist of receipts from individual income taxes, social insurance (payroll) taxes, and corporate income taxes. Preferential provisions, such as tax exemptions, deductions, and credits, which reduce government receipts, are called *tax expenditures*. Excise taxes, duties, gifts, and miscellaneous receipts are other sources of federal revenues.

Offsetting collections are not classified as revenues, but instead are treated as negative spending (i.e., as noted above, deducted from gross budget authority and outlays).

## Budget Deficit or Surplus

The difference between government revenues and outlays in a fiscal year equals the *budget deficit* or *surplus*. A budget deficit results when outlays exceed revenues; a budget surplus results when revenues exceed outlays. What is counted as government revenues and outlays, however, depends on the presentation of the federal budget. The federal budget typically is presented in the form of the *unified budget*, reflecting a unified budget deficit or surplus. The unified budget, or *consolidated budget*, includes the revenues and outlays of all budget accounts, including federal funds and trust funds, regardless of whether they are designated in law as on-budget or off-budget. The unified budget represents a comprehensive picture of the federal government's financial activities.

The federal budget also is presented to distinguish between on-budget and off-budget accounts. That is, the federal budget also presents an *on-budget deficit or surplus* and an *off-budget deficit or surplus*. The on-budget deficit or surplus includes all accounts not designated in law as off-budget. The off-budget deficit or surplus includes those accounts designated in law as off-budget. Currently, there are three accounts designated in law as off-budget: the Federal Old-Age and Survivors Insurance Trust Fund (Social Security retirement), the Federal Disability Insurance Trust Fund (Social Security disability), and the Postal Service Fund.

## Debt

The *gross federal debt*, almost all of which is subject to statutory limitation, consists of the *debt held by the public* plus the *debt held by government accounts*. The debt held by the public is the total net amount borrowed from the public by the federal government to cover its budget deficits over the years. Usually, analysts use the debt held by the public as the measure of the impact of the federal government's borrowing on the economy. It is this portion of federal debt that not only reflects the amount of the nation's wealth invested in federal government securities rather than in private investment, but also determines the level of real resources the government must acquire to make interest and principal payments. The debt held by government accounts is the total net amount of federal debt issued to specialized federal accounts, primarily trust funds. It represents internal transactions of the federal government.

# Learn how Capitol Hill really works

**All of our programs and any combination of their topics can be tailored for on-site training for your organization.**

For more than 35 years, TheCapitol.Net and its predecessor, Congressional Quarterly Executive Conferences, have been teaching professionals from government, military, business, and NGOs about the dynamics and operations of the legislative and executive branches and how to work with them.

Our custom, on-site training and publications include congressional operations, legislative and budget process, communication and advocacy, media and public relations, research, testifying before Congress, legislative drafting, critical thinking and writing, and more.

- **Diverse Client Base**—We have tailored hundreds of custom on-site training programs for Congress, numerous agencies in all federal departments, the military, law firms, lobbying firms, unions, think tanks and NGOs, foreign delegations, associations and corporations, delivering exceptional insight into how Washington works.™
- **Experienced Program Design and Delivery**—We have designed and delivered hundreds of custom programs covering congressional/legislative operations, budget process, media training, writing skills, legislative drafting, advocacy, research, testifying before Congress, grassroots, and more.
- **Professional Materials**—We provide training materials and publications that show how Washington works. Our publications are designed both as course materials and as invaluable reference tools.
- **Large Team of Experienced Faculty**—More than 150 faculty members provide independent subject matter expertise. Each program is designed using the best faculty member for each session.
- **Non-Partisan**—TheCapitol.Net is non-partisan.
- **GSA Schedule**—TheCapitol.Net is on the GSA Schedule, 874-4, for custom on-site training: GSA Contract GS02F0192X.

Please see our Capability Statement on our web site at [TCNCS.com](http://TCNCS.com).

Custom training programs are designed to meet your educational and training goals, each led by independent subject-matter experts best qualified to help you reach your educational objectives and align with your audience.

As part of your custom program, we can also provide classroom space, breaks and meals, receptions, tours, and online registration and individual attendee billing services.

For more information about custom on-site training for your organization, please see our web site: [TCNCustom.com](http://TCNCustom.com) or call us: 202-678-1600, ext 115.
